

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

THE NEW HARVARD ENTRANCE  
REQUIREMENTS<sup>1</sup>

## CONTENTS

<i>The New Harvard Entrance Requirements:</i> PROFESSOR JAMES HARDY ROPES .....	793
<i>The Bolyai Prize. II:—</i> <i>Report on the Works of Hilbert:</i> M. POIN- CARÉ .....	801
<i>The Willard Gibbs Medal</i> .....	808
<i>Scientific Notes and News</i> .....	809
<i>University and Educational News</i> .....	812
<i>Discussion and Correspondence:—</i>	
<i>The Law that Inheres in Nomenclature:</i> PROFESSOR JAMES G. NEEDHAM. <i>On Evi-</i> <i>dence of Soma Influence on Offspring from</i> <i>Engrafted Ovarian Tissue:</i> PROFESSOR C. C. GUTHRIE .....	813
<i>Scientific Books:—</i>	
<i>Hobart on Electric Motors;</i> Swenson and <i>Frankenfield on the Testing of Electromag-</i> <i>netic Machinery:</i> PROFESSOR WALTER I. SLICHTER. <i>Ries's Economic Geology:</i> PRO- FESSOR J. F. KEMP .....	820
<i>Psychology in Russia:</i> DR. L. R. GEISSLER ..	822
<i>The Time given by University Students to</i> <i>Study and Recitation:</i> PROFESSOR R. R. RAMSEY .....	823
<i>Special Articles:—</i>	
<i>Biological Conclusions drawn from the</i> <i>Study of the Titanotheres:</i> DR. HENRY FAIRFIELD OSBORN. <i>Underground Tem-</i> <i>peratures:</i> PROFESSOR THOMAS L. WATSON. <i>The Scales of the Dipnoan Fishes:</i> PRO- FESSOR T. D. A. COCKERELL .....	825
<i>Societies and Academies:—</i>	
<i>The Biological Section of the New York</i> <i>Academy of Sciences:</i> DR. L. HUSSAKOF ..	832

MSS. intended for publication and books, etc., intended for review should be sent to the Editor of SCIENCE, Garrison-on-Hudson, N. Y.

IN this address (a free abstract of which, written out later, is here given) it should be clearly borne in mind that the speaker is familiar only with eastern admission arrangements, and that what he says is wholly from the point of view of an eastern institution, with its own problems, in some respects different from those which meet the schools and universities of the west. Indeed, a knowledge of the real entrance requirements in any institution, as distinguished from the catalogue rules, can be gained only from an acquaintance with actual practise, for in the nature of the case the real requirements depend on the mode of administering the rules.

## I

The earlier entrance requirements at Harvard, as at all contemporary institutions, were determined by the fact that the subjects studied in school were generally to be continued in college. It was accordingly necessary to know whether a boy who applied for admission had reached the point in Latin, Greek and mathematics where he would be able to go on with college work in those subjects. This was substantially the case until soon after the beginning of the administration of President Eliot in 1869. A process of radical modification in the Harvard entrance requirements then began, and at successive periods since, about ten years apart, there have been important and far-reaching changes.

<sup>1</sup> Address at the annual meeting of the Michigan Schoolmasters' Association, Ann Arbor, Mich., March 31, 1911.
